

Senior/Principal Biostatistician

Job Department: Biostatistics

Location: Maidenhead, UK or Home-Based

Job Type: Full time

Position Description:

As a Senior/Principal Biostatistician, you will hold a combined technical, project leadership and mentoring role. You will support the Director of Biostatistics in providing care and mentorship to junior members of the team, as well as deliver, lead and project manage assigned studies.

For candidates with expert statistical knowledge, there's also the opportunity to provide high-level consultancy to clients; providing advice, guidance and technical expertise for more complex studies.

Principal responsibilities include:

- Deliver and lead assigned studies ensuring quality standards and timelines are met
- Mentor junior Biostatisticians
- Prepare and review Statistical Analysis Plans and specifications
- Write and review statistical methodology and results sections of reports
- Perform sample size calculations
- Review statistical analysis (tables, figures and listings)
- Provide statistical input to the design and review of Protocols and Case Report Forms
- Prepare and deliver training for staff and clients on statistical methodology and principles
- Deliver presentations and manage technical communication with clients

Skills and Experience Required:

- Bachelor's degree in Statistics
- Substantial experience in methodological biostatistics
- Good SAS programming skills
- Thorough knowledge of ICH E9 Statistical Principles for Clinical Trials

To apply for this position, send your CV, along with a cover/presentation letter, to careers@crosnt.com with the job position in the subject line.

CROS NT CAREERS
