

Consultant Statistician

Job Department: Statistics

Location: Office-based (strongly preferred) in Chapel Hill, NC (USA) or home-based (East Coast, USA)

Job Type: Permanent, Full time

Position Description:

As a Consultant Statistician, you will provide high-level statistical consultancy to clients: providing advice, guidance and technical expertise for more complex studies. You will support the Director of Biostatistics in providing care and mentorship to junior members of the team, as well as lead and deliver statistical projects.

You will also be involved in business development activities to help expand our US presence. Utilizing your network and statistical expertise, you will identify and work closely with potential clients to establish their statistical requirements and provide a solution to help win new business.

Principal responsibilities include:

- Provide statistical consultancy to pharmaceutical and biotechnology clients on a wide range of statistical issues from sample size calculations to regulatory support
- Support and/or lead business development meetings with new and existing customers
- Manage technical communication with clients
- Deliver and lead assigned studies through all phases of statistical planning and reporting, including writing and review of analysis plans, TFL generation, statistical review of deliverables, and writing and review of statistical methodology documentation
- Provide statistical input to the design and review of development programs, study protocols, and study related documents
- Mentor junior statisticians
- Prepare and deliver training for staff and clients on statistical methodology and principles

Skills and Experience Required:

- Masters or PhD in Statistics or Mathematics
- Extensive experience in methodological biostatistics
- Strong working knowledge of GCP, ICH, FDA and other regulatory guidelines, including direct experience supporting customers with FDA interactions
- Previous involvement in business development activities strongly preferred
- Good SAS programming skills

To apply for this position, send your CV, along with a cover/presentation letter, to careers@crost.com with the job position in the subject line.

CROS NT CAREERS
